RESEARCH INTERESTS

Urban Climate; Natural Disasters; Statistical Climatology; GeoAI; Climate Informatics; Remote Sensing; Nature Based Solutions

PROFESSIONAL APPOINTMENT

New York University | *Courant Institute of Mathematics, Computing, and Data Science* **2025 - Present**
Postdoctoral Researcher New York, NY, USA

- Developed AI-based downscaling algorithm as part of the ACCLIMITISE project
- Spearheaded a data fusion project integrating remote-sensing, in-situ and climate model outputs
- Led multi-nation research projects, including countries in Africa and Europe

University of Illinois Chicago | *Department of Earth and Environmental Sciences* **2023 - 2025**
Postdoctoral Researcher Chicago, IL, USA

- CROCUS Artificial Intelligence and Digital Twins (AIDT) initiative planning lead
- Led multiple projects regarding urban natural hazard, nature-based solution, and GeoAI
- Directed multi-institute collaboration to publish 10+ peer reviewed papers

EDUCATION

Texas A&M University **2018 - 2023**
Doctor of Philosophy in Atmospheric Science | Advisor: Dr. Andrew Dessler College Station, TX, USA

- Thesis: *Extreme Temperature Events Caused by Climate Change and Variability: Drivers and its Impact*

Seoul National University **2011 - 2018**
Bachelor of Science in Earth and Environmental Science | Advisor: Dr. Kwang-Yul Kim Seoul, South Korea

- Thesis: *Analysis of Source Regions and Meteorological Factors for the Variability of Spring PM10 Concentrations in Seoul, Korea* [Best Thesis Award]

PUBLICATIONS

Citations: 247 | H-Index: 9

Published Papers: 23 | Lead Author (First & Corresponding): 20 | co-Author: 3 | Under Review: 4

* *Corresponding Author* | ⁺ *Equal Contribution* | ^ξ *Mentored Students*

Under Review

- **Lee, J*** & Shamekh, S (2026) How Far Can We Downscale? Resolution Limits and Physical Interpretability of Diffusion Models for African Precipitation. *Machine Learning: Earth* [Under Review]
- **Lee, J***, Park, S. Y., Wadhwa, A., Chakraborty, TC., Packman, A., Nesbitt, S., Sharma, A., Vincent, A.E.S., Collis, S., Muradyan, P., Negri, C., Pal, S., Cho, A., Berkelhammer, M., Miller, W., Kotamarthi, R., Hence, D (2026) Crowdsourced Data as a New Framework for Urban Hazard Detection and Analysis: A Review of Data Sources, Methods, and Applications in Extreme Heat and Flood Monitoring. *Urban Climate* [Under Review]

- Muradyan, P*, Collis, S., O'Brien, J. R., Tuftedal, M., Jackson, R., Raut, B. A., Grover, M., Kaludi, B., Vincent, A. E. S., Wagner, T. J., Sankaran, R., Cho, A., Weart, B., Pal, S., Sullivan, R. C., Anderson, G., Berkelhammer, M., Conrad, N., DuMerer, D., Fytanidis, D. K., Gala, T., Gonzalez-Meler, M. A., Hence, D., **Lee, J.**, Lozano, F., Michnick, J., Miller, W. M., Nesbitt, S., Packman, A. I., Park, S. Y., Saari, C., Shahkarami, S., Wang, J., Wawrzyniak, E., Yocca, D., Zvolanek, E., Beaudry, S., Kotamarthi, R., Negri, C (2026) CROCUS Micronet: A Distributed, AI-Enabled Urban Observation System in Chicago. *Bulletin of the American Meteorological Society* [Under Review]
- **Lee, J*** & Berkelhammer, M (2026) Environmental Controls and Climate Sensitivity of Contemporary and Future Urban Bike-Sharing Programs Across the United States. *Journal of Environmental Management* [Under Review]

2026

1. **Lee, J***, Berkelhammer, M., O'Brien, J., McNicol, G., Vincent, A.E.S., Grover, M., Packman A.I., Kaludi, B., Cho, A., Gonzalez-Meler, M (2026) Imputation of Urban Environmental Sensor Data using Gated Attention Bidirectional Long Short-Term Memory (GA-BiLSTM): Methods, Performance, and Implications. *Environmental Monitoring and Assessment*, 198, 262
2. **Lee, J***, Berkelhammer, M., Vincent, A.E.S., Grover, M., Cho, A., Packman, A.I., Kaludi, B., Gonzalez-Meler, M., McNicol, G (2026) Quality Assessment and Control of Urban Environmental Sensors using Physical Thresholding and Machine Learning-based Probabilities. *Big Earth Data*

2025

TALKS & PRESENTATIONS (Recent 3 years)

- A Multiscale Model-Driven Experimental (ModEx) Framework for Urban Areas – a CROCUS approach, *AGU*, 2025
- The 2025 CROCUS Urban Flooding and Rainfall Campaign: *International Conference on Urban Climate*, 2025
- Urban Land Surface Temperature Downscaling in Chicago: Addressing Ethnic Inequality and Gentrification, *AGU*, 2024
- Comparing Multi-source Urban Flood Indicators: Satellite, Simulation, and Citizen-reported Data, *DOE UIFL Meeting*, 2024
- Observational Constraints on the Spatial Effect of Greenness and Canopy Cover on Urban Heat in a Major Midlatitude City, *DOE UIFL Annual Meeting*, 2024
- Urban Land Surface Temperatures: Importance, Measurements, and Applications, *Florida State University*, 2024 [Invited]
- Urban Land Surface Temperatures: Measurements, and Applications, *University of Illinois Chicago*, 2024 [Invited]
- Urban Land Surface Temperature Downscaling in Chicago: Addressing Disparities, *Seoul National University*, 2024 [Invited]

PATENTS

- Method of Prediction: Mercury Concentration in Blood (South Korea Patent # 1019623150000)

AWARDS & RECOGNITIONS

- Selected in AGU Global Environmental Change Early Career Researcher Spotlight, 2025
- Top Cited Paper in GeoHealth, AGU, 2025
- Outstanding Graduate Student Research Award, Texas A&M University, 2021
- Outstanding Graduate Student Seminar Award, Texas A&M University, 2021
- Best Thesis Award, Seoul National University, 2017
- Merit-Based Scholarship, Seoul National University, 2011-2017

PYTHON PACKAGES. BOOKS & EDUCATION MATERIALS

- STELAR (Spatio-TEmporaL lAg-based Regression) GAM: https://github.com/jangholee92/stelar_gam

-
- Python and Statistics for Climate and Atmospheric Informatics (Book in Prep): <https://github.com/jangholee92/pythonForCI>
 - E3SM & ELM Documentation with OLMT: https://github.com/jangholee92/ELM_Tutorial

TECHNICAL PROFICIENCY

- Proficient in Python, R, and Linux
- Proficient in ML, DL, and HPC Modules: TensorFlow, Keras, Scikit-Learn, XGBoost, Dask
- Proficient in AI algorithms and architectures: GAN, Diffusion Models, Autoencoders, etc.
- Proficient in GIS tools: QGIS, ArcGIS, GeoPandas, Google Earth Engine (GEE)
- Proficient in land-atmospheric modelling (ELM)

RESIDENTIAL STATUS

- Lawful Permanent Resident (LPR) of the United States
- South Korea Citizen
