RESEARCH INTERESTS

GeoAI; Urban Climate; Land Modelling; Climate Downscaling; Environmental Data Science; Nature Based Solution; Urban Natural Hazard; Remote Sensing; Climate Change; Climate Informatics

PROFESSIONAL EXPERIENCE

New York University | ***Courant Institute of Mathematics, Computing, and Data Science*** ***2025 - Present***
Postdoctoral Researcher New York, NY, USA

- Developed AI-based downscaling algorithm as part of the ACCLIMITISE project
- Spearheaded a data fusion project integrating remote-sensing, in-situ and climate model outputs
- Led multi-nation research projects, including countries in Africa and Europe

University of Illinois Chicago | ***Department of Earth and Environmental Sciences*** ***2023 - 2025***
Postdoctoral Researcher Chicago, IL, USA

- CROCUS Artificial Intelligence and Digital Twins (AIDT) initiative planning lead
- Led multiple projects regarding urban natural hazard, nature-based solution, and GeoAI
- Directed multi-institute collaboration to publish 10+ peer reviewed papers

EDUCATION

Texas A&M University | ***Atmospheric Sciences*** ***2018 - 2023***
Doctor of Philosophy *in Atmospheric Science* | Advisor: Dr. Andrew E. Dessler College Station, TX, USA

- Thesis: *Extreme Temperature Events Caused by Climate Change and Variability: Drivers and its Impact*

Seoul National University | ***School of Earth and Environmental Sciences*** ***2011 - 2018***
Bachelor of Science *in Earth and Environmental Science* | Advisor: Dr. Kwang-Yul Kim Seoul, South Korea

- Thesis: *Analysis of Source Regions and Meteorological Factors for the Variability of Spring PM10 Concentrations in Seoul, Korea* [Best Thesis Award]

PUBLICATIONS

Citations: 347 | H-Index: 12 *(as of 10/10/2026)*

Published Peer-Reviewed Papers: 28 | Lead Author (First and/or Corresponding): 24 | co-Author: 4

***** *Corresponding Author* | $^{+}$ *Equal Contribution* | $^{\xi}$ *Mentored Students*

2026

1. **Lee, J*** & Shamekh, S (2026) Evaluation of Conditional Diffusion for Cross-sensor Land Surface Temperature Downscaling Across African Cities. *International Journal of Remote Sensing* [In Press]
2. **Lee, J*** & Shamekh, S (2026) Model Architecture and Calibration Period Sensitivity in Controlled Super-Resolution Reconstruction of Near-Surface Air Temperature. *Machine Learning: Earth*, 2 (2), 025017

FUNDED GRANTS & AWARDS

- Google Cloud Platform Research Grant [Co-PI, 20,000 USD]: *Diffusion-Based Multi-Sensor Satellite Fusion for Land Surface Temperature* (2026)
- 1st Place in Climate Investment Challenge [Co-PI, 5,000 GBP]: *AquaRisk Horizon* (2026)

PATENTS

- Method of Prediction: Mercury Concentration in Blood (South Korea Patent #1019623150000)

TALKS & PRESENTATIONS (Recent 3 years)

- A Multiscale Model-Driven Experimental (ModEx) Framework for Urban Areas – a CROCUS approach, *AGU*, 2025
- The 2025 CROCUS Urban Flooding and Rainfall Campaign: *International Conference on Urban Climate*, 2025
- Urban Land Surface Temperature Downscaling in Chicago: Addressing Ethnic Inequality and Gentrification, *AGU*, 2024
- Comparing Multi-source Urban Flood Indicators: Satellite, Simulation, and Citizen-reported Data, *DOE UIFL Meeting*, 2024
- Observational Constraints on the Spatial Effect of Greenness and Canopy Cover on Urban Heat in a Major Midlatitude City, *DOE UIFL Annual Meeting*, 2024
- Urban Land Surface Temperatures: Importance, Measurements, and Applications, *Florida State University*, 2024 [Invited]
- Urban Land Surface Temperatures: Measurements, and Applications, *University of Illinois Chicago*, 2024 [Invited]
- Urban Land Surface Temperature Downscaling in Chicago: Addressing Disparities, *Seoul National University*, 2024 [Invited]

RECOGNITIONS & MISCELLANEOUS

- Selected in AGU Global Environmental Change Early Career Researcher Spotlight, 2025
- Top Cited Paper in GeoHealth, AGU, 2025
- Outstanding Graduate Student Research Award, Texas A&M University, 2021
- Outstanding Graduate Student Seminar Award, Texas A&M University, 2021
- Best Thesis Award, Seoul National University, 2017
- Merit-Based Scholarship, Seoul National University, 2011-2017

PYTHON PACKAGES, BOOKS & EDUCATION MATERIALS

- STELAR (Spatio-TEmporaL lAg-based Regression) GAM: https://github.com/jangholee92/stelar_gam
- Python and Statistics for Climate and Atmospheric Informatics (Book in Prep): https://github.com/jangholee92/pythonForCI
- E3SM & ELM Documentation with OLMT: https://github.com/jangholee92/ELM_Tutorial

TECHNICAL PROFICIENCY

- Proficient in Python, R, and Linux
- Proficient in ML, DL, and HPC Modules: TensorFlow, Keras, Scikit-Learn, XGBoost, Dask
- Proficient in AI algorithms and architectures: GAN, Diffusion Models, Autoencoders, etc.
- Proficient in GIS tools: QGIS, ArcGIS, GeoPandas, Google Earth Engine (GEE)
- Proficient in land-atmospheric modelling (ELM)

RESIDENTIAL STATUS

- Lawful Permanent Resident (LPR) of the United States
- South Korea Citizen
